When you buy a board from Embedded Artists you will of course get the basic support needed to get up and running. As a complement to this we now offer our customers a possibility to buy a support package.

You as a customer will get support concerning all the technical questions you may have regarding the Embedded Artists boards and the software provided to these boards, including uClinux. We have got experienced engineers who know the answers to almost all your questions!

Please contact us at info@EmbeddedArtists.com if you need more information or if you want to purchase a support package.
