

The Art of Embedded Systems Development - made Easy™

**Document status: Preliminary** 

### **LPC1788-32 OEM Board Feature Highlights**

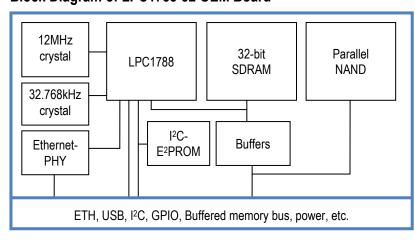

The LPC1788-32 OEM Board provides a quick and easy solution for implementing a high-performance ARM Cortex-M3 based design around the LPC1788 from NXP.

- Build around NXP's ARM Cortex-M3 LPC1788 microcontroller with 512Kbyte internal FLASH and 96Kbyte internal SRAM
- 32MByte external SDRAM, via 32-bit databus
- 128 Mbyte NAND FLASH
- 100/10Mbps Ethernet interface based on SMSC LAN8720
- 12.000 MHz and 32.768 kHz crystals for LPC1788
- 32Kbyte I2C E2PROM for storing non-volatile parameters
- Buffered 32-bit data bus
- +3.3V powering
- 200 pos expansion connector (as defined in popular SO-DIMM industry standard), 0.6mm pitch
- Compact design with dimensions: 68 x 50 mm

### **Support Highlights**

- Access to Embedded Artists support page containing
  - Schematics
  - User's Manual
  - Sample software applications
  - OEM Board Integration Guide
- Supported by Developer's Kit, see picture to right
- Volume discount available
- Customization service available for optimized high-volume design

### Block Diagram of LPC1788-32 OEM Board

# 

### **NXP Partner**

Embedded Artists is a partner of NXP. Together we give engineers an excellent base to work from when creating advanced embedded systems. We have a close co-operation and know everything there is to know about the NXP processors. Take advantage of our unique knowledge! For further information, please contact: <a href="mailto:support@EmbeddedArtists.com">support@EmbeddedArtists.com</a>

The Art of Embedded Systems Development – made Easy™

**Document status: Preliminary** 

**Absolute Maximum Ratings** 

Parameter	Rating
VDD to GND (Supply voltage)	-0.5V to +3.6V
General for Digital/Analog Input/Output Voltage	-0.5V to VDD+0.5V
+5V tolerant pins on LPC1788	-0.5V to +6.0V (see LPC1788 DS for details)
Storage temperature	-40°C to 100°C

Stress above these limits may cause permanent damage to the board.

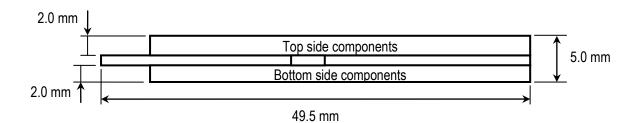

### **Technical Data**

	I		
Parameter	Min	Typical	Max
Supply voltage (VDD to GND)	3.15V	3.30V	3.50V
Ripple with frequency contents < 100kHz			40mV
Ripple with frequency contents ≥ 100kHz			10mV
Supply current			Max observed
- idle, 32kHz RTC active		TBD <sup>[2]</sup>	
- low-power mode		TBD <sup>[2]</sup>	
- executing from internal flash (100MHz)		TBD <sup>[2]</sup>	
- executing from external sdram (100MHz)		TBD <sup>[2]</sup>	
- Ethernet+usb active		TBD <sup>[2]</sup>	
VBAT current		TBD <sup>[2]</sup>	
Operating temperature <sup>[1]</sup>	-40 °C		+85 °C
Relative Humidity (RH)			
$0^{\circ}\text{C} < \text{T}_{A} \le 50^{\circ}\text{C}$ , non-condensing	5%		80%
50°C < T <sub>A</sub> ≤ 60°C, non-condensing	5%		50%
60°C < T <sub>A</sub> ≤ 70°C, non-condensing	5%		35%

<sup>[1]</sup> Extended temperature range applied on LPC1788 OEM board rev E and later.

### **Mechanical Dimensions**

Board width according to SO-DIMM standard: 67.6 mm. Board height and depth according to picture below:

### **ESD CAUTION**

**ESD** (electrostatic discharge) sensitive device. Charged devices and circuit boards can discharge without detection. Although this product features ESD protection damages may occur on devices subjected to high energy ESD. Therefore, proper ESD precaution should be taken to avoid performance degradation or loss of functionality.

<sup>[2]</sup> Will be defined after a characterization process.

The Art of Embedded Systems Development - made Easy™

**Document status: Preliminary** 

### **Disclaimers**

Embedded Artists reserves the right to make changes to information published in this document, including without limitation specifications and product descriptions, at any time and without notice. This document supersedes and replaces all information supplied prior to the publication hereof.

Customer is responsible for the design and operation of their applications and products using Embedded Artists' products, and Embedded Artists accepts no liability for any assistance with applications or customer product design. It is customer's sole responsibility to determine whether the Embedded Artists' product is suitable and fit for the customer's applications and products planned, as well as for the planned application and use of customer's third party customer(s). Customers should provide appropriate design and operating safeguards to minimize the risks associated with their applications and products.

Embedded Artists does not accept any liability related to any default, damage, costs or problem which is based on any weakness or default in the customer's applications or products, or the application or use by customer's third party customer(s). Customer is responsible for doing all necessary testing for the customer's applications and products using Embedded Artists' products in order to avoid a default of the applications and the products or of the application or use by customer's third party customer(s). Embedded Artists does not accept any liability in this respect.

Embedded Artists does not accept any liability for erratas on individual components.

All Embedded Artists' products are sold pursuant to Embedded Artists' terms and conditions of sale: http://www.embeddedartists.com/sites/default/files/docs/General\_Terms\_and\_Conditions.pdf

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted under this document. If any part of this document refers to any third party products or services it shall not be deemed a license grant by Embedded Artists for the use of such third party products or services, or any intellectual property contained therein or considered as a warranty covering the use in any manner whatsoever of such third party products or services or any intellectual property contained therein.

UNLESS OTHERWISE SET FORTH IN EMBEDDED ARTISTS' TERMS AND CONDITIONS OF SALE EMBEDDED ARTISTS DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTY WITH RESPECT TO THE USE AND/OR SALE OF EMBEDDED ARTISTS PRODUCTS INCLUDING WITHOUT LIMITATION IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE (AND THEIR EQUIVALENTS UNDER THE LAWS OF ANY JURISDICTION), OR INFRINGEMENT OF ANY PATENT, COPYRIGHT OR OTHER INTELLECTUAL PROPERTY RIGHT.

UNLESS EXPRESSLY APPROVED IN WRITING BY THE CEO OF EMBEDDED ARTISTS, PRODUCTS ARE NOT RECOMMENDED, AUTHORIZED OR WARRANTED FOR USE IN MILITARY, AIR CRAFT, SPACE, NUCLEAR, LIFE SAVING, OR LIFE SUSTAINING APPLICATIONS, NOR IN PRODUCTS OR SYSTEMS WHERE FAILURE OR MALFUNCTION MAY RESULT IN PERSONAL INJURY, DEATH, OR SEVERE PROPERTY OR ENVIRONMENTAL DAMAGE.

Resale of Embedded Artists' products with provisions different from the statements and/or technical features set forth in this document shall immediately void any warranty granted by Embedded Artists for the Embedded Artists' product or service described herein and shall not create or extend in any manner whatsoever, any liability of Embedded Artists.

This document as well as the item(s) described herein may be subject to export control regulations. Export might require a prior authorization from national authorities.

### **Definition of Document Status**

**Embedded Artists AB** 

Jörgen Ankersgatan 12 SE-211 45 Malmö

**Preliminary** – The document is a draft version only. The content is still under internal review and subject to formal approval, which may result in modifications or additions. Embedded Artists does not give any representations or warranties as to the accuracy or completeness of information included herein and shall have no liability for the consequences of use of such information. The document is in this state until the product has passed Embedded Artists product qualification tests.

**Approved** – The information and data provided define the specification of the product as agreed between Embedded Artists and its customer, unless Embedded Artists and customer have explicitly agreed otherwise in writing.
