Introduction

Supply chain issues in the area of corporate responsibility are of global importance, and also play an increasingly important role in a company's competitiveness and profitability. In order to ensure responsible corporate governance in the areas of basic human rights, labor standards, environmental management and anti-corruption in the workplace, Embedded Artists' CODE OF CONDUCT was established in April 2014. Embedded Artists has based its CODE OF CONDUCT on the United Nations Global Compact, an international initiative which is supported by corporations around the world to ensure accountability in the areas noted above.

Code of conduct – purpose

For the purpose of protecting Human Rights, promoting fair employment conditions, safe working conditions, responsible management of environmental issues and high ethical standards, the CODE OF CONDUCT shall be applied in the production, supply and support of Embedded Artists products and services worldwide. In addition to compliance with all relevant laws, regulations and standards in all of the countries in which Embedded Artists operate, companies and employees shall comply with the CODE OF CONDUCT even if it stipulates a higher standard than required by national laws or regulations. Embedded Artists requires suppliers and their subcontractors to comply with the CODE OF CONDUCT or similar standards. It is the responsibility of the Supplier to ensure that its employees and subcontractors are informed about and comply with the CODE OF CONDUCT. Embedded Artists supports the United Nations Global Compact initiative. In order to make this commitment clear to employees, suppliers, customers and other stakeholders, the CODE OF CONDUCT is based on the Global Compact's ten principles and shall be publicly available.

Employment conditions

Employees understand their employment conditions. Pay and terms are fair and reasonable, and comply at a minimum with national laws or industry standards whichever is higher. Working hours comply with national laws and are not excessive.

Child labor

Personal development includes a child's health or physical, mental, spiritual, moral or social development as described in the Article 32 of the United Nations Convention on the Rights of the Child. Where a child is employed, the best interests of the child shall be the primary consideration.
